

Turning data into insight

July 12, 2024

We are pleased to reach out to you and offer the opportunity to implement an interactive website for your organization. Our solutions are competitively priced within the national market, and we would be delighted to collaborate with you on digital transformation, enhancing your brand's accessibility and market presence.

Our team handles 100% of the design, branding, and functionality, with skilled professionals in web development and design. We look forward to the possibility of working together.

You can view the work completed by our organization in our professional portfolio: [CarlLRi/Portafolio-: Portafolio Profesional de Ingeniería en Software \(github.com\)](https://github.com/CarlLRi/Portafolio-: Portafolio Profesional de Ingeniería en Software)

Should you have any further questions, please do not hesitate to reach out to us.

IMPORTANT NOTES

1. The domain is billed annually. If the proposal is accepted, the domain is provided free of charge for the first year.
2. To initiate the website development, a 40% deposit must be made to a bank account, with the remaining 60% due upon delivery of the website.
3. Future updates to the website are charged separately based on need.
4. The client must have a stable and dedicated internet connection for the system.
5. It is recommended to purchase website maintenance, as our response time for issues or failures is 8 hours, and 4 hours for critical cases.
6. Staff training is provided once, along with a user manual and a recording of the main uses of the tool.

Turning data into insight

7. Any changes after accepting the terms will be billed based on development hours.
8. Teamwork will not be carried out if it is not up-to-date.
9. The quotation does not include devices such as computers or printers.
10. The system is web-based, so computers must have internet access and a browser specified by the client.
11. The service comes with a 3-month warranty (it is recommended to obtain a maintenance contract).
12. Our professionalism and ethics allow us to sign a confidentiality agreement for the use and handling of client and organizational data.
